Subject: RE: HTC EPA Equipment

Eric,

The equipment you outlined below is what we have here staged and ready to return to you. We have been waiting for the replacement Ludlum cord to come in prior to returning the equipment and we expect to receive that tomorrow. Once that is received we will coordinate with you to bring it over and check it in with you. Please let me know if that works with your schedule.

Thanks,

Tim

Importance: High

Hi Tim:

I know Ben and Lionel are in the field. Is there anyone in the Weston Office who can drop off the rest of the equipment? I want to stage back in the equipment room as well as go through inventory. The original list of equipment transported by Weston was:

laptop with 6 link batteries, 2 gateways, 4 dataram links, 3 datarams, 1 trimble, 2 ludlum 3 x 3 setups, with a link with each, and 2 HPICs.

I would ask Lionel and Peter to verify what is still in Weston's possession.

I brought back the 2-Ludlum 2241-3*3 probe units. I also brought back the one black case which I believe contained the datarams and dataram links?

Please let me know.

Thanks

Regards,

Eric
